

# Warden Terms of Service

This is an agreement (hereafter “**Terms**”) between the parties represented as the Warden owners and developers (hereafter “**Warden**”) and users (hereafter “**Users**”) of the Warden services/products (hereafter “**Services**”) listed below as “**List of Warden Services**”, covering the use of these Services by the Users.

By default, entries not in these Terms are permitted.

## Services

1. Warden makes Services available to the Users in the form of Discord bots (hereafter “**Bots**”) and associated websites for the Bots (hereafter “**Websites**”). Discord is a VoIP, instant messaging and digital distribution platform unassociated with Warden.
2. No warranty or guarantee is provided in regards to availability, access to, and/or use of the Services including the Bots or Websites. The Services may be terminated, altered, or made unfit for use by the Users at any time without prior notice by Warden.
3. Most of the Services offered by Warden are free and without charge or other remuneration to the Users. However, additional services may be provided in return for financial contribution.
4. Warden tries to assure that the Services do not host any copyrighted content, but will remove any reported infringing content as quickly as reasonably possible. All content inadvertently provided to Warden is expected to be properly owned or otherwise licensed by the individual Users providing the content.
5. Warden is not responsible for any financial harm, lost income, stolen intellectual property, or harmed services, and provides no guarantee or warranty to protect any Users from this occurring by third parties.
6. Warden may use third party services to facilitate collection of financial contributions, and is not responsible for anything that occurs between the Users and the third party services.
7. Warden reserves the right to terminate access to the Services at any time without prior notice to any Users for violating any of these Terms, including restricting access to specific Users or restricting access to the specific Discord Guilds that the specific Users are accessing the Services from.

## Conduct

8. Users agree not to harm the Services, including exploiting, direct denial of service, or otherwise trying to restrict access of other Users to the Services, or to cause downtime of the Services in general.
9. Users agree not to cause Warden undue costs by spamming, automating, or otherwise excessively using the services for unsubstantiated purposes beyond intended use.

10. Users agree not to falsely represent themselves as Owners, Developers, Staff, or other titles associated with Warden or the Services, or falsely represent any of their products or services as endorsed by Warden or the Services.
11. Users agree not to test the Services for vulnerabilities, by scanning, probing, or otherwise attempting to find exploits in the Services except when given express permission by the owners and developers of the Services in order to improve the services.
12. Users agree that they are at least 13 years of age and are following the guidelines and terms of service for using Discord.

## Meta-Terms

13. Warden reserves the right to update these Terms at any point in time without prior notice.
14. Warden reserves all rights to its own work and Services, unless expressly stated otherwise and provided with a license for that specific work.
15. Any inaccuracies of any of the specified Terms listed does not invalidate any of the other Terms listed.

## List of Warden Services

- Vwarden Discord Bot
- VWARDEN.ORG and all subdomains
